Kindle was the Trials of Mary Bell, so I recommend to read both books, which explains how she was sexually abused by her mother. Other ladies of my group also were very impressed, and by no means Mary Bell had a very difficult youth, by reading the 2 books you don't give her credit for what she did but being so molested, and apart from the James Bulger murder not so many children under 10, commit this horrendous assassinations. Excellent books the author did a great job and deeply went to the core of the subject and tried to understand what happened in this girl's mind, it is the mother who should have been on trial. 0 of 1 people found the following review helpful.
