StevensonGot this based on reviews. First time I've been snookered on that basis. I'm sixty-something and found this book sappy, couldn't last past 3 stories. Guess I don't fit the "profile." I do, however, remember one review referring to it as sappy (the only negative one), and now I find that review missing. Is this a way pushes book sales? By upping review averages? Gave this two stars instead of one because based on the title I should have had a tipoff as to the mishmosh inside. Follow your gut instinct.0 of 0 people found the following review helpful. Nice collection of storiesBy DMI bought this book to read to my 85 year old mother who can no longer read. I am 57. I found that many of the stories contained here are suitable for my adult children and grandchildren. It is a nice collection of stories.

Through touching, entertaining and inspiring stories, this latest Chicken Soup collection shares the stories of people sixty and over who are redefining the expression "better with age" by greeting life's joys and challenges with grace, vibrancy and a positive attitude.
