LOVE THE SOUL BOOKSBy Minnie MouseMY DAUGHTER LOVES TO READ AND I RECOMMEND THESE BOOKS BECAUSE THEY ARE REAL STORIES INSTEAD OF FILING HER HEAD WITH JUNK.0 of 0 people found the following review helpful. Good SoupBy FicktionPhotographyThis book has been a constant shelf companion for many, many years and has a great collection of stories, poems, anecdotes, comic panels, and other forms of literary communication that reflect the tumultuous back story of the average teenage life. It does skirt around darker topics, but to it's credit it also jumps headlong into the more common problems like divorce, friendship, and that odd, age old feeling of love. Hell, even in my late 20s some of the stories still make sense and are applicable.My only concern about the book is that each story and anecdote or poem and comic panel is too neat. Life is not this neat and there are always going to be problems that arise. These stories need a context in the broader spectrum of life and ought to be given if the book is to be handed to a teenager. It's a good teaching tool, but not the be all end all teaching tool. Otherwise, it's a good book for any individual struggling to make sense of a world that is nonsensical.
