Great book, but I never received mine...By Julie Klotzi never even received my book from seller Pre-Loved Books, but I had so much going on in my life at the moment that I was too late to dispute the order when I realized. I love this book, though. I've checked it out from the library... it's a really well-organized overview of world mythology, with surprising depth and adequate images.0 of 2 people found the following review helpful. great!By Katharine M. NittiThis is a great book. It is great as a reference, great to read straight through, etc. I actually bought it because I have a 4 year old who really loves Greek Mythology, and this lets me look up a God or Goddess alphabetically if she has a question. I love this book.0 of 3 people found the following review helpful. above and beyond great serviceBy mswhalen67I ordered this on a friday morning and i got it on that
