praised *Companies with a Conscience: Intimate Portraits of Twelve Firms That Make a Difference*, Third Edition:

Required reading at universities and business schools across the country, *Companies With A Conscience* is the story of corporate America at its best. "Caring capitalism," as these twelve companies prove, is not only decent, but also profitable. For them and many more, strong employee and community relations, as well as concern for the environment, are just as important as the bottom line. Above all, they are companies with a heart whose stories are not only exemplary, but also inspiring. Companies profiled are: America Works, Ben Jerry's, Birkenstock USA, Celestial Seasonings, Greyston Bakery, Interface, Kansas City Chiefs, Patagonia, Shorebank, Stonfield Farm, Sunrise Medical and Tattered Cover Book Store.
