Libraries are public placesopen to anyone and everyone. This book contains invaluable, practical tips for library staff who sometimes must deal with difficult or even dangerous individuals and situations. Presents practical, down-to-earth approaches based on the authors' many years of real-world experience that can be applied in any type of library environment Provides advice about unpleasant situations in an accessible, non-threatening way that also injects an appropriate modicum of levity into a serious subject Supplies essential tools for dealing with difficult patrons ranging from "the censor" to "the VIP" to dangerous, unstable individuals Gives readers the knowledge they need to be

prepared for handling potential problems, resulting in greater confidence and peace of mind at the workplace

"[T]his volume truly presents the reader with a comprehensive overview of preventing stressful situations in the library, diffusing angry patrons, and knowing the best course of action to take in any circumstance. . . . The work is a great review as well as introduction to the life of a librarian, illustrating both the positive and the challenging situations." - ARBAonline
