Ron Haskins, Isabel V. Sawhill : Creating an Opportunity Society before purchasing it in order to gage whether or not it would be worth my time, and all praised Creating an Opportunity Society:

Americans believe economic opportunity is as fundamental a right as life, liberty, and the pursuit of happiness. More concerned about a level playing field for all, they worry less about the growing income and wealth disparity in our country. Creating an Opportunity Society examines economic opportunity in the United States and explores how to

create more of it, particularly for those on the bottom rungs of the economic ladder. Ron Haskins and Isabel Sawhill propose a concrete agenda for increasing opportunity that is cost effective, consistent with American values, and focuses on improving the lives of the young and the disadvantaged. They emphasize individual responsibility as an indispensable basis for successful policies and programs. The authors recommend a three-pronged approach to create more opportunity in America: Increase education for children and youth at the preschool, K12, and postsecondary levels Encourage and support work among adults Reduce the number of out-of-wedlock births while increasing the share of children reared by their married parents With concern for the federal deficit in mind, Haskins and Sawhill argue for reallocating existing resources, especially from the affluent elderly to disadvantaged children and their families. The authors are optimistic that a judicious use of the nation's resources can level the playing field and produce more opportunity for all. Creating an Opportunity Society offers the most complete summary available of the facts and the factors that contribute to economic opportunity. It looks at the poor, the middle class, and the rich, providing deep background data on how each group has fared in recent decades. Unfortunately, only the rich have made substantial progress, making this book a timely guide forward for anyone interested in what we can do as a society to improve the prospects for our less-advantaged families and fellow citizens.
