Loraine Blaxter, Christina Hughes, Malcolm Tight : How to Research (Open Up Study Skills) before purchasing it in order to gauge whether or not it would be worth my time, and all praised How to Research (Open Up Study Skills):

0 of 1 people found the following review helpful. Good BookBy JeanneProvides excellent tips on the methodology of research.0 of 1 people found the following review helpful. Three StarsBy Nick CicchinoGood book on the basics needed to get you from point A to point B when researching.0 of 2 people found the following review helpful. Textbook for Course I am taking.By DPMThis is recommended for a course I am taking. I have skimmed it. It looks fine. I can update this reviewed later.

"I found this book brilliant, I had never undertaken anything like a dissertation before and this book had everything in it that I needed to know. It is written in 'simple English' which is a bonus as some books are just too hard to understand. Everything you need to know about writing your dissertation is in here. I would recommend this book to all levels." *****Review of the third edition from Amazon.co.uk How to Research is a bestselling, practical book that reassures the first time researcher by leading them systematically through the whole research process; from the initial meetings with a supervisor to critically evaluating their ideas, doing the research and finally writing up the project. The book includes vignettes to help readers relate to research examples and provides both methodological and process information. New features in this edition include: Additional coverage on literature reviews New material on changes in research ethics More detailed information on the use of diaries, internet ethnographies and visual methods Increased coverage of mixed methodologies How to Research 4e is an ideal resource for the first-time researcher doing a small-scale research project in the social sciences whether they are at university or in the workplace. It supports its readers as they develop their skills to become more experienced researchers.

About the Author Loraine Blaxter and Christina Hughes are both based at the University of Warwick. Loraine is a Research Associate in the Institute of Health, School of Health and Social Studies and Christina is a Professor within the Department of Sociology. Christina is editor of a further book from Open University Press, Disseminating Qualitative Research (2003). Malcolm Tight is a Professor in the Department of Educational Research at Lancaster University. He is author of two other recently published books by Open University Press, The Development of Higher Education in the UK since 1945 (2009) and Researching Higher Education (2003).
