Mark Bjelland Associate Professor, Daniel R. Montello, Jerome D Fellmann, Arthur Getis, Judith Getis :
Human Geography: Landscapes of Human Activities before purchasing it in order to gage whether or not it would be worth my time, and all praised Human Geography: Landscapes of Human Activities:

0 of 0 people found the following review helpful. BEWARE THE EXPIRATION DATE By CustomerF*** this rental. I rented this book in January for what I thought was a time period until May. You know the standard college semester length. Come to find out in March the night before a quiz, oh hey this is only a two month rental. What?? Why on earth would you make a college book rental for only TWO MONTHS?? I rented another textbook from and the rental time was for a period of almost 200 DAYS. That's a full semester and then some. So, that's an extra \$64.50 I'm out. With that and the first rental cost of the same price, I may as well of bought the book from the campus store. So, a warning for the other college students out there, ALWAYS CHECK THE EXPIRATION DATE ON KINDLE RENTALS.0 of 0 people found the following review helpful. Great illustrations By Bri Needed this book for class. Great illustrations0 of 0 people found the following review helpful. Very detailed. By Cheyenne I did not enjoy this textbook. I was using it to study for a DSST exam and the book went into way too much detail for it to be useful to

me. So for my purpose it wasn't good, but if you need to study this subject in detail then this textbook is perfect for you!

This twelfth edition of Human Geography retains the organization and structure of its earlier versions. Like them, it seeks to introduce its users to the scope and excitement of geography and its relevance to their daily lives and roles as informed citizens. We recognize that for any students, human geography may be their first or only work in geography and this, their first or only textbook in the discipline. For these students particularly, we seek to convey the richness and breadth of human geography and to give insight into the nature and intellectual challenges of the field of geography itself.

About the Author Daniel Montello is a professor at University of California. Judy Getis is now deceased. Judy was a professor at San Diego State University, San Diego. Jerry Fellmann is deceased. Arthur Getis is a retired professor from San Diego State University, San Diego. Mark Bjelland is a professor at Gustavus Adolphus College.
