Jimmy Lee Shreeve : Human Sacrifice: A Shocking Expos of Ritual Killings Worldwide before purchasing it in order to gage whether or not it would be worth my time, and all praised Human Sacrifice: A Shocking Expos of Ritual Killings Worldwide:

0 of 0 people found the following review helpful. Good Read for those New To the SubjectBy Sharon CShreeve's book offers an eye-opening look into the world of human sacrifice. It's a fairly good read. The author veers away from the possible effectiveness of such practices and leans toward the psychology and ideologies some cultures have about its effectiveness--and whether or not those beliefs are steeped in mythology rather than fact. Very educational in terms

of realizing just how many people are curious about and pursue the notion that offering humans to the Gods rewards them in some way. I still have a chapter or two left to read, but if you are looking to learn about, say, modern-day practices by those very high-up in politics or corporations who may use rituals to better their monetary standing in the world, this really isn't the book. It's mostly educational in teaching readers who are new to the subject about notorious 'tribal-type' groups who believe whole-heartedly (and not always from an evil point of view) about such practices. It's worth purchasing if you want an introduction to this world. 9 of 10 people found the following review helpful. Macabre, Fascinating, Revealing By Longwolf Human sacrifice is alive and well and, as usual, we have our heads buried in the sand. The author covers a controversial topic with complete lack of political correctness which is a very refreshing experience. His material is well researched and presented in a readable manner. I enjoyed this book from cover to cover and want more information. The references presented are informative and helpful and his approach very human. I will enjoy following-up on several of the references cited and look forward to more from the author. 1 of 4 people found the following review helpful. Three Stars By Kindle Customer bored me to death.....

Welcome to the terrifying world of ritual sacrifice. Around the world, humans are being trafficked, kidnapped, sold, and enslaved for the specific purpose of sacrifice. Mass-scale migration has seen these gruesome techniques exported from the land of the Aztecs and finding their way to the United States, Britain, and many other locations worldwide. Voodoo priests in London have been linked to ritual murders, and not long ago a Palo Mayombe priestess's New York City apartment yielded its grisly secrets. One New Jersey investigator says that sacrificial rites are not only going on today, but can be traced back ninety years in the States alone. Jimmy Lee Shreeve takes us on a nightmare journey, following the initial investigations of Scotland Yard into the murder of a five-year-old boy whose torso was found floating in the Thames in 2001, and traveling to Africa to unveil a grim trade of exporting humans for sacrifice. He uncovers the dark side of voodoo and muti magic, linked with a score of sacrifices and murders, and in Mexico, finds a devotee of Palo Mayombe responsible for torturing his victims and boiling them in a cauldron. Along the way, Shreeve brings his own brand of offbeat detective skills to the fore, providing startling conclusions to some of the world's most horrific murders. Brutal and disturbing, Human Sacrifice takes us into the dark world of twenty-first-century ritual murder.

About the Author Jimmy Lee Shreeve is the author of the cult bestseller Doktor Snake's Voodoo Spellbook along with a string of other books, and is the presenter of the popular Doktor Snake's "Voodoo Machine Podcast."
