I was seventeen when the author showed up for her special message about this book. The plot was all summed up, so I wonder if I should read it or not in my lifetime. I'll give it a shot later! Three years later, I placed the book on special order through this website right here and it came out right on schedule. Gently used, the pages were still in perfect condition! Hooray to self. When I was reading it in the year 2017, I heard of many sex trafficking stories of both survival triumph and defeat throughout the book. It was so good, it even mentioned Rejected Princesses' Harriet Tubman and her story as a historic example from slavery to freedom. I understand why this world is running rampant with modern slavery is because of the "Gary-Stu" abusive stalkers taking young girls to excessive, unnecessary work even in the factories and places very unknown. We need to support ending human trafficking by the recommendation to read this book. GET IT NOW!!!0 of 0 people found the following review helpful. Everyone needs to educate themselves about this problem...By Faye NordquistThis book certainly makes you think about some of the awful things going on in the world around us. The women from our church have really rallied around human trafficking the past couple of years and this was one of the books on their "please purchase and read" list. I actually purchased it for our church library, and didn't read it all the way through before I donated it as so many people were looking for it, would like to read it in its entirety soon.1 of 1 people found the following review helpful. Bought a copy for my daughter too.

In Our Backyard invites the reader in to the lives of human trafficking victims, survivors and the traffickers themselves with true stories. These stories not only inform the reader, but also take them quickly through a well-documented crash course about human trafficking--better described as modern-day slavery--in the United States. A quick read which includes study questions for small groups, In Our Backyard could change your life and save lives around you.
