Independence without Sight or Sound covers the essential aspects of communicating and working with deaf-blind

adults--individuals who have both vision and hearing loss. Written in a personal and informal style, it is filled with practical information for any professional who works with someone who is deaf-blind, such as how to talk with someone who is deaf-blind, how deaf-blind people can communicate with strangers and interact with people in public, and how they can overcome isolation and assert control over their own life. Written by an expert in orientation and mobility, this guide emphasizes adapting orientation and mobility techniques for deaf-blind travelers.

"...a must for all those who serve, or will be serving, persons who are both visually and auditorially disadvantaged. A classic." -- The Volta
