Stephen L. Schensul, Jean J. Schensul Institute for Community Research, Margaret D. LeCompte University of Colorado Boulder : **Initiating Ethnographic Research: A Mixed Methods Approach (Ethnographer's Toolkit, Second Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Initiating Ethnographic Research: A Mixed Methods Approach (Ethnographer's Toolkit, Second Edition):

1 of 1 people found the following review helpful. Can be read as a novel
By IlianaLovely and thank you for putting these series of books together. Conducting ethnography is more than just a piece of paper, a recording, and questions. If journalists and sociologists could engage more in the true understanding of ethnography, we would also have better documentaries out there. Simply beautiful!
1 of 1 people found the following review helpful. Excellent Text
By J AguilarProvides a very clear, step-by-step guide to starting ethnographic research. I have recommended it to several colleagues. Others in the series are equally as strong.

This is Book 2 of 7 in the *Ethnographer's Toolkit, Second Edition*. *Initiating Ethnographic Research: A Mixed Methods Approach*, is the first book of its kind. Unlike texts that describe and detail methods for doing ethnographic and qualitative research once in the field, Book 2 explores in depth the many critical issues that ethnographic researchers need to consider before going to the field and in the earliest stages of the field experience. These include preparation of self, establishing relationships that ensure access to the field, and steps in the construction of a formative theoretical model that will inform the entire research process from start to finish. Following guidelines established in Book 1, the first three chapters describe the reasons why ethnography should be considered a mixed methods approach to social science research. They discuss why theory is important in guiding a study, and the important institutional and personal preparations required to enter a field setting and begin work. Additional chapters debunk the idea that ethnographers always enter the field with their minds a clean slate in terms of what they will find during their investigation. They show why and how researchers can develop initial theoretical models based on local knowledge and literature reviews. Ethnography uses a holistic approach, so such models take into consideration both individual/population and systemic or structural considerations. They lead the way to integrating ecological, empirical, critical, and interpretivist approaches into a comprehensive analysis of a dynamic system. Two chapters also provide detailed examples to illustrate the connection between steps in the modeling process, creation of observational measures, and steps in data collection--from most open-ended kinds of interviewing and observation to the kind of highly structured ethnographic surveying described in Book 3. Extensive illustrative case examples are included. The final chapter shows how the modeling process can be extended to guide the development of interventions and change strategies at multiple levels a process that should be part of any research program. A wide variety of diagrams, instructions, examples, and illustrations make the topics and processes covered in Book 2 easy to read and understand, even by novice researchers. Overall, Book 2 offers a unique mixed methods lens through which to build theory by engaging in research modeling, to enter the field, to set up to gather data, and to anticipate influencing change. Other books in the set: Book 1: *Designing and Conducting Ethnographic Research: An Introduction, Second Edition* by Margaret D. LeCompte and Jean J. Schensul 9780759118690 Book 3: *Essential Ethnographic Methods: A Mixed Methods Approach, Second Edition* by Jean J. Schensul and Margaret D. LeCompte 9780759122031 Book 4: *Specialized Ethnographic Methods: A Mixed Methods Approach* edited by Jean J. Schensul and Margaret D. LeCompte 9780759122055 Book 5: *Analysis and Interpretation of Ethnographic Data: A Mixed Methods Approach, Second Edition* by Margaret D. LeCompte and Jean J. Schensul 9780759122079 Book 6: *Ethics in Ethnography: A Mixed Methods Approach* by Margaret D. LeCompte and Jean J. Schensul 9780759122093 Book 7: *Ethnography in Action: A Mixed Methods Approach* by Jean J. Schensul and Margaret D. LeCompte 9780759122116

About the Author Stephen L. Schensul is director of the Center for International Health Studies, professor of Community Medicine and Health Care, and associate professor of Anthropology at the University of Connecticut. Jean J. Schensul is founding director and senior scientist at the Institute for Community Research, Hartford, Connecticut. Margaret D. LeCompte is professor emerita of education and sociology at the University of Colorado, Boulder.
