Tom Quinn : Irish Dancing (Collins Pocket Reference) before purchasing it in order to gage whether or not it would be worth my time, and all praised Irish Dancing (Collins Pocket Reference):

0 of 0 people found the following review helpful. Great Ceili and Set dance reference
By Elizabeth Merritt
This book is hands-down one of the best references around for ceili and set dances. Anyone who has called dances at a social ceili will tell you the same. One confused reviewer stated that this book was a poor reference for an "advanced competition" dancer - that is correct! This is not a book about competitive step dancing, but a reference detailing dozens of dances in the social dance styles of Ireland: ceili and set dancing.
4 of 5 people found the following review helpful. A rebuttal
By Ceiligril72
As an amateur dancer in Kansas City, MO, I can say that this book and Pat Murphy's "Toss the

Feathers" are the two most well-thumbed reference texts in my dance class. I've been trying to get my own copy all year, but it's been on back-order since last St. Patrick's Day. If the reviewer from 12/22/00 has a better suggestion for reference material, I'm all ears. I hope to travel to Ireland within the next couple of years. When I do, I'd like to be able to ceili with other Irish locals like I know what I'm doing. 1 of 5 people found the following review helpful. yikes...By A Customer as a competition Irish dancer, I thought this book stunk. but I'm sure it was good from anyone else's point of view. I thought that more dances should be shown for the more advanced student...and if anyone knows of an advanced level Irish dance book, let me know

This guide comprises instructions to over 150 Irish dances, bringing together for the first time in a single volume, ceili, set, and two-handed country dances. It includes all dances commonly featured in classes, summer schools and feiseanna.
