**Barry Rubin : Israel: An Introduction** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Israel: An Introduction:

0 of 0 people found the following review helpful. An objective, well-documented insight into modern Israel and its place in the world By Pepet de Btera A thorough, wholly enjoyable and well-documented summary of modern Israel, from the beginning of the Zionist movement to the present, covering aspects such as geography, history, social studies, economy, religion, literature, music, cinema, politics, the military, etc. A pleasure to read, and a must for everyone wishing to better understand modern Israel and its key stance on the global chessboard. 0 of 0 people found the following review helpful. who knew the Mid East like no one I've read before By Proview This man was a gifted writer, educated in the US, who knew the Mid East like no one I've read before. His insight and analysis was unmatched, until

his death. Get his books and you'll understand what the media leaves out...the real story is altogether different. His insights are timeless...read them and you'll have the key to keen understanding. 1 of 1 people found the following review helpful. This book needed to be written. By Bradley I wanted to read a book about Israel. Not entirely about the wars or diplomatic efforts. Mr. Rubin goes into detail about the history, society, government, economy, etc etc in a very nice way. It takes a relaxed approach to controversies which was a nice change of pace! Recommended!

This comprehensive book provides a well-rounded introduction to Israel's definitive account of the nation's past, its often controversial present, and much more. Written by a leading historian of the Middle East, Israel is organized around six major themes: land and people, history, society, politics, economics, and culture. The only available volume to offer such a complete account, this book is written for general readers and students who may have little background knowledge of this nation or its rich culture. Based on research by scholars with extensive firsthand knowledge of Israel, this book offers accessible, clearly explained material, enhanced with a generous selection of images, maps, charts, tables, graphs, and sidebars. This book provides readers with a solid foundation of knowledge about Israel and provides useful reference lists by topic for those inspired to read further.

There have been many hundreds of books for and against Israel but no volume presenting the essential information about its domestic politics, its society, as well as its cultural life and its economy. This gap has now been filled. Walter Laqueur, author of *A History of Zionism*
