0 of 0 people found the following review helpful. Well worth the priceBy Simple JackDan Wichlan has ferreted out several previously unpublished and unavailable works by Jack London. Like everything Mr. London wrote, these 26 essays are compelling, insightful, and well worthwhile. This is a collection of various social writings, commentary,

news articles, human interest tales, and other pieces which cover a broad spectrum of subject material. I purchased the first edition of this book in paperback when it was initially published and read it eagerly. I was in no way disappointed. As always, Jack London challenges, stimulates, edifies, and entertains, quite effortlessly. Dan Wichlan says it rather well: "[Jack London] was one of the most influential journalists of the early twentieth century who helped to effect considerable social change through his journalism, including [works on universal] suffrage, prohibition, treatment of disease, and political change."

The nonfiction of Jack London is a viable surrogate for his autobiography. This body of his work objectively presents his views on race, politics and the opposite sex. His beliefs in these areas have often been distorted with out of context quotes or misinterpretations based on his fiction. Whereas London wrote his fiction for financial gain, his nonfiction clearly reflects his social conscience. This collection of his nonfiction writing presents some of his rarest work (not available elsewhere) which provides insight into both the writer and the man. This second edition adds a previously unpublished essay on class distinctions in Mexico; a book review exposing corruption in labor unions; and a book introduction explaining London's resignation from the Socialist Party.

About the Author Daniel J. Wichlan is an independent Jack London scholar who has spent more than 30 years collecting and analyzing London's nonfiction. His overview of London's nonfiction is included in the forthcoming Oxford University Press "Handbook of Jack London." He is also editor of "The Complete Poetry of Jack London." He is on the board of The Jack London Society, and he is a member of the Jack London Foundation who elected him "Man of the Year" in recognition of his contribution to London scholarship.
