Elliott, 2ndFull of promise and potential...but failed to genuinely 'deliver thru the backdoor' as both the title proclaimed and as entirely expected by the reader!!! Overall the book needed to have centered less upon the heroines

inability to finally fully 'connect' with her young husbands desires and needs with his blushing young bride, and far more upon her complete anal submission to HIM above all others!!! Plot ok, but book had to have been much longer to contain so full of a plot AND genuinely be about the virginal young maiden brides blooming backdoor sexual lust with her new husband!!!0 of 0 people found the following review helpful. Five StarsBy Matthew A. MeierGood read0 of 0 people found the following review helpful. What Hypnosis can do??By Robert M. BartelsThis author certainly knows how to make a story work till the end - not provocative but sensual and makes one wonder if hypnosis really works??

A solitary honeymoon turns into an orgy of dark discoveries in this all out anal thriller. Jenny and Bill's romantic retreat in a secluded castle is rudely interrupted by locals determined on showing them a special kind of hospitality. Populated by a host of sex bent blackmailers, from the reclusive Lord Drymuir to Lady Humpley the local lesbian, this will keep you up on a dark night!
