5 of 8 people found the following review helpful. A Magnificent Work of Art and Compassion !By A CustomerThis is a fabulous, in-depth look into the lives and hearts of our handicapped citizens. The sense of awareness brought forth through the book's photography is astounding. The stories of each individual featured in this book will instantly bring out a much deeper compassion for handicapped people as a whole. Americans will gain an appreciation for the struggles of our handicapped while at the same time help put aside fears that have been instilled in us. To the authors...Congratulations on a job well done!

Profiling 40 individuals with disabilities from all over the US, the authors capture in words and art-quality photographs forty stories of courage, endurance, and spirit.
