available for use in class. My students love to talk, but there are some days that seem like nothing can motivate them to speak up. It is nice to see different views on getting students motivated when they are not. 0 of 0 people found the following review helpful. This is a practical guide to communication activities in the language classroom, suitable for use with students from elementary to advanced level. Part I contains instructions for over 100 different exercises, including interviews, guessing games, jigsaw tasks, problem solving, values clarification techniques, mime, role play and story telling. For each activity, notes are also provided on the linguistic and educational aims, the level, organisation, time and preparation required. Part II contains the accompanying worksheets, which can be copied, making many of the activities instantly available for use in class. A comprehensive table of activities and an index are included for ease of reference.
