0 of 0 people found the following review helpful. Great Book in this genreBy Laura G.Very remarkable, interesting, useful, nothing else like that I know of.1 of 11 people found the following review helpful. Five StarsBy priscilla shaheenI'm intrigued with this text! Read it and follow suit! You won't regret the task.Me0 of 1 people found the following review helpful. Five StarsBy C. CongA must-read for legal professionals.

First published in 1976, Raymond Williams' highly acclaimed *Keywords: A Vocabulary of Culture and Society* is a collection of lively essays on words that are critical to understanding the modern world. In these essays, Williams, a renowned cultural critic, demonstrates how these key words take on new meanings and how these changes reflect the political bent and values of our past and current society. He chose words both essential and intangible--words like nature, underprivileged, industry, liberal, violence, to name a few--and, by tracing their etymology and evolution, grounds them in a wider political and cultural framework. The result is an illuminating account of the central vocabulary of ideological debate in English in the modern period. This edition features a new original foreword by Colin MacCabe, Distinguished Professor of English and Literature, University of Pittsburgh, that reflects on the significance of Williams' life and work. *Keywords* remains as relevant today as it was over thirty years ago, offering a provocative study of our language and an insightful look at the society in which we live.

About the Author Raymond Williams (1921 - 1988) was a Fellow of Jesus College, Cambridge University. Colin MacCabe is Distinguished Professor of English and Literature, University of Pittsburgh, and author of numerous books on literature and theory of language.
