Appreciate getting it for a decent price.The items I did not give a review on were presents. But my boys not living in the area, buying from and being able to ship straight to them is a very positive selling point.I will not purchase or purchase less if the three items I recently purchased with problems are

not rectified. Thank you, Ron6 of 6 people found the following review helpful. Mind blowingBy DamiaThis book changed the way I saw life in general and it has left a profound mark on me. I have since reading this book bought four more of his and this one by far has been the most powerful. It is a powerful read, but I would advise to not take it literally and use it as a guide to do further research into the spiritual (or literal, depending on your beliefs) world that Castaneda enters.0 of 0 people found the following review helpful. I still believe these characters... are real,, exaggerated by they were real.

Millions of readers worldwide have treasured the visionary brilliance of Carlos Castaneda, who first explore the world of the Yaqui Indian sorcerer in *The Teachings of don Juan*. Now, at last, don Juan returns in *The Power of Silence*, infuriating, capable of working miracles and playing practical jokes, but always seeking the wisdom of the warrior. *The Power of Silence* is Castaneda's most astonishing book to date -- a brilliant flash of knowledge that illuminates the far reaches of the human mind. Through don Juan's mesmerizing stories, the true meaning of sorcery and magic is finally revealed. Honed in the desert of Sonora, the visions of don Juan give us the vital secrets of belief and self-realization that are transcendental and valid for us all. It is Castaneda's unique genius to show us that all wisdom, strength, and power lie within ourselves -- unleashed with marvelous energy and imaginative force in the teachings of don Juan -- and in the writings of his famous pupil, Carlos Castaneda

From *Library Journal*In this new work, Don Juan absent from Castaneda's preceding three works once again appears prominently. To convey the advanced spirituality of the Yaqui shaman, Castaneda relates stories told by Don Juan and his own experiences with the don. Such mysterious concepts as "stalking" and "intent," the "knocking" and trickery of the spirit, are all discussed. The vivid depictions of Don Juan's powers and personality will reawaken readers' fascination with earlier volumes, and since only one of three sets of six stories supposedly related by Don Juan appears here, doubtless more books are to come.
