Barbra Buckner Higginbotham, Judith W. Wild : The Preservation Program Blueprint (Frontiers of Access to Library Materials, 6) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Preservation Program Blueprint (Frontiers of Access to Library Materials, 6):

0 of 0 people found the following review helpful. Four StarsBy Ruth ScibiurA good practical book

A complete guide to developing a library-wide preservation program, The Preservation Program Blueprint will help you to map out a system that is both preventative and curative. Placing the responsibilities of preservation on every staff member in each department, Higginbotham and Wild assert that by decentralizing preservation activities and

integrating them into ongoing library functions, you will preserve materials effectively, efficiently, and with buy-in from staff. Apply their proven strategies to: * Create an "around-the-building" approach to preservation. * Implement preventative "on-the-job" techniques. * Identify "who-does-what" following the functional listing in the table of contents. Libraries of all types and sizes cannot afford to not involve all library staff in the preservation process. The new Blueprint shows you how to preserve materials in your collection by bringing all of the resources in your library to bear.

"This book serves as a reminder that collections are central to a library's existence, mission, and purpose. Highly recommended for small to middle-sized libraries that sense a need for increased stewardship of their collections."About the AuthorBarbra Higginbotham, Ph.D., is the director of the Brooklyn College Library at the City University of New York where she also serves as the Executive Director of Academic Information Technologies and teaches in the English Department. She holds master's and doctoral degrees in library science from Columbia University. Judith W. Wild is head of Technical Services at the Brooklyn College Library, CUNY. She serves on the library policy-making body, and during her tenure at Brooklyn, has taught at the Queens College and Pratt Institute graduate library schools. She earned a master's degree and specialist degree in Educational Technology from Indiana University, and a master's in library science from Columbia University.
