From SAGE Publications, Inc : The SAGE Encyclopedia of Theory in Psychology before purchasing it in order to gauge whether or not it would be worth my time, and all praised The SAGE Encyclopedia of Theory in Psychology:

Drawing together a team of international scholars, The SAGE Encyclopedia of Theory in Psychology examines the contemporary landscape of all the key theories and theorists, presenting them in the context needed to understand their strengths and weaknesses. Key features include: Approximately 300 signed entries fill two volumes Entries are followed by Cross-References and Further Readings A Readers Guide in the front matter groups entries thematically A detailed Index and the Cross-References provide for effective search-and-browse in the electronic version Back matter includes a Chronology of theory within the field of psychology, a Master Bibliography, and an annotated Resource Guide to classic books in this field, journals, associations, and their websites The SAGE Encyclopedia of Theory in

Psychology is an exceptional and scholarly source for researching the theory of psychology, making it a must-have reference for all academic libraries.

"The SAGE Encyclopedia of Theory in Psychology is a comprehensive and impeccable researched resource that presents nearly 300 entries that detail varied topics as they relate to theory in psychology. The Encyclopedia is presented in a manner that makes it both approachable - a detailed reader's guide points the researcher in the correct direction - and sufficiently scholarly... This Encyclopedia is a useful tool and should be available in the library of every researcher."--S. Mofford"ARBA" (12/01/2016)-The SAGE Encyclopedia of Theory in Psychology is a comprehensive and impeccable researched resource that presents nearly 300 entries that detail varied topics as they relate to theory in psychology. Hal Miller, Jr., is a professor of psychology in the Department of Psychology at Brigham Young University. He received his BS degree in psychology from Arizona State University and then studied with Richard Herrnstein at Harvard University, where he received a PhD in experimental psychology. He joined the psychology faculty of Brigham Young University, where he has remained. In addition to a full teaching load throughout his career, he has maintained an active lab in the experimental analysis of behavior and behavioral economics and has been an educational consultant in the United States and China. Among his scholarly interests is the philosophy of the behavioral sciences. He has coauthored an introductory psychology textbook and has served as a member of the board of editors and as associate editor of the Journal of the Experimental Analysis of Behavior. Currently, he is a member of the Provo (UT) City Municipal Council.
