From Brand: SAGE Publications Ltd : The SAGE Handbook of Social Work (Sage Handbooks) before purchasing it in order to gage whether or not it would be worth my time, and all praised The SAGE Handbook of Social Work (Sage Handbooks):

The SAGE Handbook of Social Work is the worlds first generic major reference work to provide an authoritative guide to the theory, method, and values of social work in one volume. Drawn from an international field of excellence, the contributors each offer a critical analysis of their individual area of expertise. The result is this invaluable resource collection that not only reflects upon the condition of social work today but also looks to future developments.

'This manual will be indispensable for anyone wishing to understand recent findings on common themes and different points of view in international social work. It presents a continued flow of practical orientation in easy to read contributions' - Prof. Dr. Rainer Treptow, University of Tuebingen, Institute of Education --K.E.
