Lorena A. Hickok : The Story of Helen Keller before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Story of Helen Keller:

0 of 0 people found the following review helpful. I highly recommend this book for readers into chapter books late 2nd grade on up to junior high. By Mary Harms I read this book when I was a little girl and my copy was falling apart. I wanted my granddaughter to read it now that she is into chapter books. It really is a great read about the life of Helen Keller. My granddaughter is in 2nd grade and is a good reader. The book has some challenging words in it, but it has really inspired her to read more historical biographies. Definitely a book to recommend. 0 of 0 people found the following review helpful. Still a great read. By gferr I read this book when I was in elementary school and thought my daughter would enjoy it as well. It turned out to be one of her favorite books. This book hasn't lost its impact over the years and I highly recommend it. My daughter used this book for a biography book report she was required to complete in class. 0 of 0 people found the following review helpful. Good story as expected but the book I received didn't ... By Jim Nicholson Good story as expected but the book I received didn't meet the condition I had in mind as described by the seller. It was quite tattered.
