Don Voorhees : The Super Book of Useless Information: The Most Powerfully Unnecessary Things You Never Need to Know before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Super Book of Useless Information: The Most Powerfully Unnecessary Things You Never Need to Know:

I was not prepared to share a talent but didn't want to be left out. When it was my turn to "go on stage" I quickly grabbed this book and shared some of "the useless information" I found in it. Everyone got a big kick out of it and I was a hit! I had a hard time finishing the book because every time I set it down some one would borrow it. Also when my brother-in-law had to have chemo therapy I gave this book to my sister to read to him to lighten their time while he was receiving his treatment. She said it helped a lot. 0 of 0 people found the following review helpful. Five Stars By Dean Vilhauer Comforting, relaxing reading 0 of 0 people found the following review helpful. Fun read, kids love it! By Sam Koren I order this book for my son, a 14 year old that love useless fact :) It came quickly and packed in a fit sized box. The book is full with all kinds of funny, interesting and yes, useless facts, just like the title said. My son love it and he already have other book from this collection, so he was very happy to add this one as well. Fun read, kids love it!

Faster than a speeding bullet, more useless than ever before. The #1 New York Times bestselling series reaches new heights of irrelevance with this powerfully pointless, all-new collection of the things you never need to know. Do you actually care that... there are three feet of DNA in every cell? Saturn has 47 moons? March is National Frozen Foods Month? in 2010 a traffic jam in China lasted ten days? Would it improve your life to know... which movie star wanted to be a funeral director? which state has the most horses per square mile? which dictator was obsessed with Cheetos? what day of the year the most cars are stolen in the United States?
