Great BargainsBy lolaI purchased a lot of these books when the Habitat for Humanity branch in Buffalo, Wyoming, spent over a year establishing itself as an independent affiliate of Habitat International. This read really helped ground the planning group with Millard's original vision that has been somewhat watered down due to growth/bureaucratic demands. However, the book does provide a firm foundation for smaller affiliates such as the newly minted Habitat for Humanity of Johnson County. Buying used books saved a chunk of money. All of the books were in good condition.0 of 0 people found the following review helpful. The Awesome Godly presence behind Habitat for HumanityBy Ted ParkerI love this book. I love helping build for Habitat for Humanity. I'm going to Florida in April 2017 to help on a house then every year I'm going somewhere new. This book tells you how HFH got started. Awesome!!!1 of 1 people found the following review helpful. Theology of an AngelBy A CustomerMillard Fuller is, in terms of the miricle he has created, an angel. He has done many things others only talk about. Many of us have wishes to free the world of hunger or poverty. This man is one who has acted upon his beliefs. In this book, he shares his Philosophies on Life and Love.I'd like to thank everyone who has ever done work through habitat or a similar organization. I had the opportunity to listen to Millard Fuller speak in person, and it was truely inspirational. If you ever get the chance, go and see him. Until then, read his books. They are great

and convey important principles.

By the age of thirty, Millard Fuller had come face-to-face with the reality of the American dream --he was a millionaire workaholic with a marriage on the skids. The cure was a radical one. The Fullers sold their business, donated all but a few thousand dollars to charity, and went in search of a new dream. Twenty years later, Fuller and his wife Linda are sharing that dream: Habitat for Humanity International. This exciting release continues the story of Habitat for Humanity, an organization that helps us make shelter a matter of conscience. Founder Millard Fuller describes the applied theology that directs and energizes this organizations efforts.

From Publishers WeeklyThe founder and president of Habitat for Humanity International, Millard Fuller, here shares his concept of "hammer theology" and his dream of eliminating poverty-ridden housing worldwide. Interweaving Christian scripture with his narrative, Fuller tells of the dramatic changes Habitat's hands-on ministry has effected in the lives both of the recipients of the organization's quality housing and of the volunteers who build it. He also writes autobiographically of his own spiritual journey, explaining how he came to start Habitat's phenomenal grassroots ministry. One is left, upon completing the book, with an almost mind-boggling sense of just how far-reaching, substantial and laudable Habitat has become. Copyright 1994 Reed Business Information, Inc.
