FloreyI really enjoyed this book, which is actually recommended by Donald Westlake in one of his early trickster books. I can't remember which one, but if you are interested in tricksters you should go ahead and read everything by Westlake, starting with Smoke

and the entire Dortmund series. This Paul Radin book shows the classic tricksters and I've used it to tell stories to children. 0 of 0 people found the following review helpful. Five Stars By oTISA fantastic book by one of the worlds greatest ethnographers. This should be mandatory reading for all! 0 of 0 people found the following review helpful. A wonderful Indian world. By W. te Molder This book is full of wonderful Indian (Winnebago) stories. It leurns you that everything is many-sided. If you make a decision, try to look on the other side of it. Sometimes doing nothing is more important than always playing ball.

Anthropological and psychological analysis by Radin Kereny and Jung of the voraciously uninhibited episodes of the Winnebago Trickster cycle.

..." a fascinating excursion into one of the more curious byways of the mind.... The Trickster should interest many besides professional anthropologists and psychologists." -Times [London] Literary Supplement
