From Firefly Books : The World Encyclopedia of Archaeology: The World's Most Significant Sites and Cultural Treasures before purchasing it in order to gauge whether or not it would be worth my time, and all praised The World Encyclopedia of Archaeology: The World's Most Significant Sites and Cultural Treasures:

It can be browsed or studied, and it would engage the informal student as well as the serious reader. Strongly recommended for public libraries needing just one basic resource. --Booklist As an introduction to the archaeological

discoveries of the last few centuries, there is little here to be faulted, particularly at this price. Recommended for high school, public, and college libraries. --Library Journal

The World Encyclopedia of Archaeology is a sweeping exploration of archaeology that spans the globe from the beginning of recorded history and earlier. Here is a comprehensive view of the past as seen through the remnants of civilizations as they emerge and expand. The book begins by defining modern and ancient archaeology and gives the history of archaeology through the centuries. The different types of archaeology are explored, along with the techniques used for each and the problems, concerns and issues archaeologists face today. The main section of the book details each region of the world, with the authoritative text revealing the fascinating history of important archaeological sites. This global perspective includes more than 700 illustrations. The atlas section with detailed maps provides placements throughout history. Accurate, in-depth and up to date, The World Encyclopedia of Archaeology is compelling reading. It serves as an outstanding reference for professionals, researchers, history buffs and general readers.

The World Encyclopedia of Archaeology includes: The first humans Early hunter-gatherers and farmers Megalithic builders The Bronze Age The Greeks and Romans The Dark Ages Ancient Mesopotamia The Persian Empire Nomadic states The Indus civilization China's dynasties and empires Japan and Southeast Asian kingdoms Early Mesoamericans The Maya, Aztec and Inca Ancient Egypt and the Upper Nile Iron Age Africa Australian Aborigines.
