Richard Mathew Williams : They Stole It But You Must Return It before purchasing it in order to gage whether or not it would be worth my time, and all praised They Stole It But You Must Return It:

9 of 9 people found the following review helpful. An extrordinary read By Ms Elaine A good exploration of issues concerning Black families and how the slavery experience affected Black families in America. Of course it was not just America who were affected by slavery, we must not forgot Africa, the Caribbean and the UK to mention a few.

Nevertheless an excellent read. It also looks at issues of health and is a must if you are interested in how we as Black people can recover from these experiences and become strong again to raise secure children. Dr Richard Williams has written a gem. 1 of 1 people found the following review helpful. KnowledgeBy Yummaniecee ThompsonA very powerful book my eyes was glued I could not put the book down very informational gave me a different outlook on life that I live in society and my views on people in different cultures change drastically. 4 of 4 people found the following review helpful. This book changed my life!By Caroline PaireMy whole family is now reading this book, I love it! Absolutely vital information and a must read for each and every family especially those of color.
