From Touch of Understanding : Voices of a Dream: Stories from a Touch of Understanding before purchasing it in order to gage whether or not it would be worth my time, and all praised Voices of a Dream: Stories from a Touch of Understanding:

1 of 1 people found the following review helpful. Full of inspirational storiesBy Sierra49This book is just amazing and full of inspirational stories. Certainly makes you realize with the right attitude you can accomplish anything! A Chicken Soup for people that may be perceived as different for any reason. Perfect read and discussion for bullies or

people who are being bullied. It can change your perspective on life! 1 of 1 people found the following review helpful. This is a really wonderful eye opening book By Christine Carbone This is a really wonderful eye opening book. ATOU is a program that explains various disabilities that people may have. Most after they were born and some that occurred in adulthood. They have made great strides in educating people on seeing a person for themselves, not their disability. I recommend this informative book. A+ 0 of 0 people found the following review helpful. Five Stars By Betty It was great to have something to give to my grandmother to share how I volunteer.

Do you remember when you were a child? Can you picture that one student in your school who was always teased or bullied because he or she seemed "different?" It may have been the way she walked, or the way he struggled to read. He may have been short. She may have been overweight. He may have had emotional outbursts. She may have used a wheelchair. There was at least one student who was teased or bullied for being different. You may have seen it happen. You may have been the one being teased or bullied. Or, you may have been the bully. Everyone has been touched by this destructive cycle. A Touch of Understanding works every day to help children who are the victims of teasing and bullying, along with those who witness the incidents and the children who do the teasing and bullying. In Voices of a Dream, you will meet the ATOU Team members who helped one woman turn her dream into a movement to promote genuine inclusion of all children in school and community settings, a movement that is touching thousands of lives each year, breaking down the walls of misunderstanding and abuse, and building bridges of friendship. You will read about an aerobatic pilot who uses two myo-electric hands, a young woman with autism who stretched beyond her comfort zone and is now in film school, a survivor of a tragic drunk driving accident who was the impetus for this book. You will read about the many people who came together to share their stories to educate and inspire a new generation to welcome those who seem "different" for any reason.
