## Vulnerable Populations in the Long Term Care Continuum (Advances in Long-Term Care):

Since publication of the last series volume focusing on emerging systems, long term care has continued to evolve. This present volume brings to the forefront issues related to populations of varying age groups that have been neglected or under-reported. The chapters focus on populations or groups of professionals that are integral to long term care as recipients of services or as care providers. The authors present evidence to foster the creation of new paradigms of care and inform policy makers of the need for innovation. Topics examined include: Pediatric Skilled Nursing Facilities Mental Health Services Management of AIDS Patients Chronic Illness and Disability in the Prison Setting Sexuality in long Term Care Decision Making for Vulnerable Populations in the Nursing Home
