Robinson : Wayward Women: A Guide to Women Travellers before purchasing it in order to gage whether or not it would be worth my time, and all praised Wayward Women: A Guide to Women Travellers:

1 of 1 people found the following review helpful. Comprehensive listing of women travellers who were ahead of their timeBy CustomerThis is a really good book in terms of sheer volume of women travellers you've probably never heard of. My only wish were that the info on the person I was researching was a bit more robust, but I guess that just means I need to ramp up my own research! This book is suitable for anyone who wants a comprehensive reference book on women travellers who were before their time.5 of 5 people found the following review helpful. Not Just a Book About

BooksBy dsvThis fascinating and scholarly book by Jane Robinson covers sixteen centuries of woman travelers and their writing. Bibliographic and biographical information is included for each author. Includes maps, black and white photographs, an index of authors, and a geographical index. 344 pages. If you enjoy travel writing this is an excellent resource to find many of the books you may have missed.

For over sixteen centuries, women have been undertaking great journeys and writing about their experiences, yet the traditional image of them is still that of a brave Victorian lady vigorously prodding the ends of the Earth with her parasol. But by their very nature, women travelers are a non-conformist breed. The abbess Etheria's fourth-century account of a pilgrimage to the Holy Land relates not only the religious significance of her journey, but also the difficulties mountaineering on Mount Sinai. Mary Wollstonecraft wrote of her secret voyage in 1795 to Scandinavia--all for the love of a cad. And some of the most glamorous women of the 1920s were likely to feel just as comfortable at a supper club as stalking their dinner in a central-Asian wasteland. Now reissued in attractive new covers and illustrated with eight pages of black and white plates, *Wayward Women* recounts the adventures of some 400 of these travelers, together with full bibliographical details of all of the books they produced between them. These writings, many of which are brought to light here for the first time in generations, form a significant and previously neglected body of literature, full of insight, courage, and humor.

` from previous edition `enchanted ... both an expert bibliography of women's travel writing, and a condensed biographical directory to some 400 of the travellers themselves' 'Martin Fagg Church Times>About the AuthorJane Robinson was born in Edinburgh and brought up in North Yorkshire. After graduating from Oxford, she joined a firm of antiquarian book dealers specializing in travel, later leaving to pursue a writing career. Her books include *Parrot Pie for Breakfast: An Anthology of Women Pioneers* and *Unsuitable for Ladies: An Anthology of Women Travelers*.
