His books resonate with me and are full of knowledge and historical material. I purchased both "When the World Was Black" books. Not disappointed at all. I felt the same when I ordered the "How to Hustle and Win" books by the same author. Great for teens and adults. 0 of 0 people found the following review

In this book, you ll learn about the history of Black people. I don t mean the history you learned in school, which most likely began with slavery and ended with the Civil Rights Movement. I m talking about Black history BEFORE that. Long before that. In this book, we ll cover over 200,000 years of Black history. For many of us, that sounds strange. We can t even imagine what the Black past was like before the slave trade, much less imagine that such a history goes back 200,000 years or more.
