Supreme Understanding : When The World Was Black: The Untold Story of the World's First Civilizations, Part 2 - Ancient Civilizations (Science of Self) before purchasing it in order to gage whether or not it would be worth my time, and all praised When The World Was Black: The Untold Story of the World's First Civilizations, Part 2 - Ancient Civilizations (Science of Self):

4 of 4 people found the following review helpful. They're GREAT BEAUTIFUL By william h. allen, jr Parts 1 2 R
portion of my ongoing research re the origins of civilization. In glancing thru them they R just what I've been looking
4, I'm most satisfied w/their contents which w/b most helpful in my continued research 2 of 2 people found the
following review helpful. Four Stars By Customer Great read learning mind blowing stuff that's changing my views on
life. 2 of 2 people found the following review helpful. Five Stars By Myasia Excellent Book... It's a must Read!!

In this book, you ll learn about the history of Black people. I don t mean the history you learned in school, which most
likely began with slavery and ended with the Civil Rights Movement. Im talking about Black history BEFORE that.
Long before that. In this book, well cover over 200,000 years of Black history. For many of us, that sounds strange.
We can t even imagine what the Black past was like before the slave trade, much less imagine that such a history goes
back 200,000 years or more. Part Two covers history from 20,000 years ago to the point of European contact. This is
the time that prehistoric cultures grew into ancient urban civilizations, a transition known to historians as the Neolithic
Revolution.
