Dozer In this influential writing, "Why Men Rebel" by Ted Robert Gurr covers the root causes of political violence, whether it is riots, rebellions, coups, or insurgencies, Gurr develops what is known as the relative deprivation theory. In this theory, essentially an economic argument, political violence is attributed to a discrepancy between what men and women think they deserve and what they can actually get in society. The resulting frustration culminates in incidences of

collective political violence by social groups.0 of 0 people found the following review helpful. Five StarsBy George NavariniAn excellent book, in perfect shape, and arrived much earlier than expected. Thank you, thank you, thank you.2 of 4 people found the following review helpful. This book is CURRENTBy Sojourner TruthToo bad the Maryland governor and Baltimore cops have never read this book.

Why Men Rebel was first published in 1970 after a decade of political violence across the world. Forty years later, serious conflicts continue in Africa, Asia and the Middle East. Ted Robert Gurr reintroduces us to his landmark work, putting it in context with the research it influenced as well as world events. Why Men Rebel remains highly relevant to today's violent and unstable world with its holistic, people-based understanding of the causes of political protest and rebellion. With its close eye on the politics of group identity, this book provides new insight into contemporary security challenges.

Praise for the Original Edition The most important book that has been published on social violence in a good number of years. . . .a superb piece of work. --Lewis A. Coser in The New York Times Book Likely to last a long time. -- James C. Davies in Orbis A rare, perhaps unique example of systematic empirical theory in political science...the book stands as an important contribution to social science theory in general and to the theory of violence in particular, as well as the single most complete and comprehensive statement on the topic in the literature. --Ivo K. Feierabend in the American Political Science About the AuthorTed Robert Gurr is Distinguished University Professor, Emeritus, and Founding Director of the Minorities at Risk Project in the Center for International Development and Conflict Management at the University of Maryland.
