Good book to learn about the hisptory of HalloweenBy Alison GerbigMy six year old son LOVES Halloween so this is a great book to learn about the history of all the symbols and such related to the holiday. Its appropriate material and we have enjoyed reading it. My son still has it in his books shelf even though most Halloween books got boxed up for the season.0 of 0 people found the following review helpful. Great book!By Shirley SThis book fascinated me when I was a kid, and I have spent 30 years trying to remember the name. It's an interesting intelligent look at the history and symbols of Halloween, written for kids, but smart enough for an adult to read. High regards for this book.0 of 0 people found the following review helpful. Witches, Pumpkins and Grinning GhostsBy Sherrie WoodsAlthough I am an adult I enjoyed this book very much, it was very interesting and this is something I can share with my grandkids. I liked the details of the symbols and the meaning of things that didn't make the book sound like it was evil. Very good book. Finished it in about an hour!

THE BOOK IS NOT LIKE NEW THE BOOK IS "NEW" NEVER OPENED..I pulled it out of the same section in the elementary school library where they keep books on the Loch Ness Monster and UFO's. The book gave some really cool insights into the history and symbolism of Hallowe'en. If you really, and I mean REALLY love Halloween, this

book will make you proud sitting on whatever creepy old bookshelf you have at home (put it next to the skull and severed hand!). The watercolor(?)illustrations truly capture that autumn spirit also. They say that the best children's books are those aimed at older readers, and this goes for this too!/BEST VALUE/FAST SHIPPING /OUTSTANDING CUSTOMER SERVICE/
