Kathleen McIntosh, Kate Bagley : Women's Studies in Religion before purchasing it in order to gage whether or not it would be worth my time, and all praised Women's Studies in Religion:

0 of 0 people found the following review helpful. it is a great way to get a quick taste of many different ...By Rachell ordered this for a college class and was pleasantly surprised at the variety of insights in this book. While some are definitely written in a pointlessly confusing manner just to sound more academic, it is a great way to get a quick taste of many different religions.3 of 4 people found the following review helpful. Eye-openingBy KimI am taking a

college class with one of the authors of this book so it's not surprising that this is the text. I was quickly drawn into the stories that are presented. The book is a compilation of women's stories of their experiences with mainstream religions. I have learned a great deal about religions I wasn't familiar with and the stories reaffirmed my feelings about faiths that I am experienced with. If Women's Studies is an interest of yours, I would recommend this book. The only warning is that some of the pieces written are very academic in nature and maybe tough to read. 0 of 0 people found the following review helpful. and happy with

Very fast shipment, and happy with purchase

Women's Studies in Religion: A Multicultural Reader uses essays written by today's most respected feminist voices to examine the impact of contemporary feminism on the practice and study of religion. Many in the field have expressed the need for a reader that is both accessible to undergraduates who have little background in the study of religion and that shows the transforming impact of feminism on the religious lives of American women. This book meets that need.
