**From Oxford University Press : World Religions: Eastern Traditions, 3rd Edition** before purchasing it in order to gauge whether or not it would be worth my time, and all praised World Religions: Eastern Traditions, 3rd Edition:

1 of 1 people found the following review helpful. Good Text By J. Bailey This was not a required text for my Eastern Religions course, but I bought it to help clarify some points. It is quite thorough, and helpful/5 of 6 people found the following review helpful. Well Written and Informative By Wilson Appleton This was required reading for a course I took in Eastern Religions. The material was very well written and very comprehensive. Highly recommend this book for anyone interested in learning more about Eastern Religions. Very easy to see the common thread that flows through them and how they developed over time. I am not trading this book in as I do with my other college text books, but keeping it in my personal library. 0 of 0 people found the following review helpful. Five Stars By CustomerFine

Building upon its already strong foundation, the third edition of World Religions: Eastern Traditions provides students

with a thorough and in-depth survey of Hinduism, Sikhism, Buddhism, Jainism, and Chinese, Korean, and Japanese religions. Featuring work from renowned contributors, this rich and descriptive text discusses the historical basis for the religious traditions, shows how they have developed over time, and explains how they are now situated in the contemporary world. Ideal for courses in Asian religions and comparative religions, *World Religions: Eastern Traditions, Third Edition*, combines a historically descriptive perspective with a spirit of sympathetic fascination.

**About the Author** Roy C. Amore is Professor in the Department of Political Science at the University of Windsor. He is currently working on a new text on religion and politics for OUP Canada. The late Willard G. Oxtoby was Professor Emeritus at the University of Toronto, where he launched the graduate program in the study of religion.
