Using the same step-by-step guidance that made *Writing Research Papers 11e* the definitive research paper guide, this text will enable students in the social science disciplines and in some freshman composition classes to create research papers that advance or defend a theory, offer a review of research methodology, or create a paper from their own empirical research using the APA style. *Writing Research Papers in the Social Sciences* provides sample papers demonstrating the rules of documentation as well as the writing style for the social sciences while detailing the uses of new computer technologies students are using today.
